Mainland Regional High School District Board of Education	FILE CODE: 1600
Linwood, New Jersey	Monitored
	X Mandated
Policy	X Other Reasons

RELATIONS BETWEEN OTHER ENTITIES AND THE DISTRICT

The Mainland Regional High School District Board of Education believes that cooperation between the school and other organizations concerned with youth, career development and mental health will enhance the opportunities of the district's students. Such cooperation will also enable the district to serve its students better through appropriate referrals as in substance abuse programs, special needs, etc. The superintendent is encouraged to explore areas of mutual concern with the administrative officers of such organizations and to recommend desirable courses of action.

The board directs the superintendent to seek and maintain working relationships with local colleges and universities in such areas as student teaching, inservice staff development and advanced placement.

It is of particular importance to establish and maintain close working relations with trades, businesses and industries which provide members for advisory committees and are possible sources of career placements for our students.

Core Curriculum Content Standards

The board shall encourage the active involvement of representatives from the community, business, industry, labor, and higher education in the development of educational programs aligned with the Core Curriculum Content Standards.

The board shall make reasonable efforts to develop articulation agreements with New Jersey colleges and universities to facilitate the delivery of college credit courses to qualified high school students, with the understanding that these credits shall be accepted at all public New Jersey higher education institutions.

Relations with Association

The board shall maintain membership in the Atlantic County School boards Association, and will participate in and contribute to its activities.

The board shall be an active member of the New Jersey School boards Association, will send a representative to all Delegate Assemblies, and will work with other local boards to improve educational quality offered to its students.

The district shall also be a member of the New Jersey State Interscholastic Athletic Association and participate in the NJSIAA approved inter-school athletic program.

Charter Schools

The board shall follow all procedures in code and statute when a charter school is proposed for the district or when district students would be eligible to attend a charter school in another district.

Donations to Private Organizations

The authority for a board of education to expend public funds is derived from the constitutional mandate to "provide for the maintenance and support of a thorough and efficient system of free public schools." The donation of moneys to any private organization, regardless of the merits of that organization's purposes, is not within the authority of the board and is, therefore, prohibited.

File Code: 1600

RELATIONS BETWEEN OTHER ENTITIES AND THE DISTRICT (continued)

Adopted: February 22, 1994
