

Policy

HEALTH EXAMINATIONS AND IMMUNIZATIONS

Pupils who enroll in the Mainland Regional High School District for the first time and did not attend school in one of the High School's designated sending Districts prior to their enrollment, shall have a medical examination conducted at the medical home of the student, and a full report sent to the school. If a student does not have a medical home, the district shall provide this examination at the school physician's office or other appropriately equipped facility. "Medical home" means a health care provider and that provider's practice site chosen by the student's parent/guardian for the provision of health care. As the school physician is also a health care provider, the parent/guardian may request that the school physician provide the medical examination.

A student shall be exempted from mandatory immunization if the parent/guardian objects to immunization in a written statement submitted to the principal, signed by the parent/guardian, explaining how the administration of immunizing agents conflicts with the student's exercise of bona fide religious tenets or practices. General philosophical or moral objection to immunization shall not be sufficient for an exemption on religious grounds.

Every student who enters the district schools for the first time shall present an immunization record as required by law. At the parent/guardian's request, these immunizations may be administered by the school physician.

In order to protect the health of the children and staff in district schools, all regulations of the State Department of Education, The State Department of Health and the local board of health shall be scrupulously observed, particularly those dealing with contagious/infectious diseases or conditions. Pupils seeking to enter school who have been identified as having a communicable/infectious disease or condition shall not be enrolled unless they qualify under the above agencies' rules pertaining to periods of incubation, communicability, quarantine, and reporting.

The superintendent or his/her designee shall formulate regulations that ensure immunization records are reviewed and updated annually pursuant to N.J.A.C. 8:57-4.1 through 4.16. The superintendent shall also formulate regulations for this policy and for regular student health examinations at appropriate grade levels; before participation in sports programs; and for tuberculosis, scoliosis, hearing loss, visual acuity and any other physical examinations required by law. Any health defects revealed by any examination given by the school health services must be reported to the parent/guardian. The board shall review the regulations and adopt those required by law.

Parent/Guardian Notice

In accordance with federal law, the Protection of Pupil Rights Amendment (PPRA), parents/guardians shall be notified annually of the opportunity for the parent/guardian to opt the student out of any non-emergency, invasive physical examination or screening that is:

- A. Required as a condition of attendance;
- B. Administered by the school and scheduled by the school in advance, and
- C. Not necessary to protect the immediate health and safety of the student, or of other students.
